- (d) The value for statement and deposit purposes of an investment under this paragraph shall be reduced annually by amortization of the costs of improvement and development, less land costs, over the expected life of the property, which value and amortization shall for statement and deposit purposes be determined in a manner satisfactory to the commissioner. In determining such value with respect to the calendar years in which an investment begins or ends with respect to a point in time other than the beginning or end of a calendar year, the amortization provided above shall be made on a proportional basis.
- (e) Fire insurance shall be maintained in an amount at least equal to the insurable value of the improvements or the difference between the value of the land and the value at which such real estate is carried for statement and deposit purposes, whichever amount is smaller.
- (f) Real estate acquired in any of the manners described and sanctioned under section 3 of this chapter, or otherwise lawfully held, except paragraph 5 of that section which specifically relates to the acquisition of real estate under this paragraph, shall not be affected in any respect by this paragraph unless such real estate at or subsequent to its acquisition fulfills the conditions and limitations of this paragraph, and is declared by the life insurance company in a writing filed with the department to be an investment under this paragraph. The value of real estate acquired under section 3 of this chapter, or otherwise lawfully held, and invested under this paragraph shall be initially that at which it was carried for statement and deposit purposes under that section.
- (g) Neither the cost of each parcel of improved real property nor the aggregate cost of all unimproved real property acquired under the authority of this paragraph may exceed two percent (2%) of the life insurance company's admitted assets. For purposes of this

paragraph, "unimproved real property" means land containing no structures intended for commercial, industrial, or residential occupancy, and "improved real property" consists of all land containing any such structure. When applying the limitations of subparagraph (d) of this paragraph, unimproved real property becomes improved real property as soon as construction of any commercial, industrial, or residential structure is so completed as to be capable of producing income. In the event the real property is mortgaged with recourse to the life insurance company or the life insurance company commences a plan of construction upon real property at its own expense or guarantees payment of borrowed funds to be used for such construction, the total project cost of the real property will be used in applying the two percent (2%) test. Further, no more than ten percent (10%) of the life insurance company's admitted assets may be invested in all property, measured by the property value for statement and deposit purposes as defined in this paragraph, held under this paragraph at the same time.

9. Deposits of cash in a depository institution, the deposits of which are insured by the Federal Deposit Insurance Corporation, or certificates of deposit issued by a depository institution, the deposits of which are insured by the Federal Deposit Insurance Corporation.

C  
o

have been not less than one and one-half (1 1/2) times its fixed charges for such year. However, if the business entity is a finance company or other lending institution at least eighty percent (80%) of the assets of which are cash and receivables representing loans or discounts made or purchased by it, the multiple shall be one and one-quarter (1 1/4) instead of one and one-half (1 1/2).

11.(A) Obligations issued, guaranteed, or assumed by a business entity organized under the laws of a domestic jurisdiction, which obligations have not received a rating or, if rated, have not received a rating that would qualify the obligations for investment under paragraph 11 of this section. 12. Preferred stock of, or common or preferred stock guaranteed as to dividends by, any corporation organized under the laws of a domestic jurisdiction, which over the period of the seven (7) fiscal years immediately preceding the date of purchase earned an average amount per annum at least equal to five percent (5%) of the par value of its common and preferred stock (or, in the case of stocks having no par value, of its issued or stated value) outstanding at date of purchase, or which over such period earned an average amount per annum at least equal to two (2) times the total of its annual interest charges, preferred dividends and dividends guaranteed by it, determined with reference to the date of purchase. No investment shall be made under this paragraph in a stock upon which any dividend is in arrears or has been in arrears for ninety (90) days within the immediately preceding five (5) year period.

13. Common stock of any solvent corporation organized under the laws of a domestic jurisdiction which over the seven (7) fiscal years immediately preceding purchase earned an average amount per annum at least equal to six percent (6%) of the par value of its capital stock (or, in the case of stock having no par value, of the issued or stated value of such stock) outstanding at date of purchase, but the conditions and limitations of this paragraph shall not apply to the special area of investment to which paragraph 23 of this section pertains.

13.(A) Stock or shares of any mutual fund that:

- (a) has been in existence for a period of at least five (5) years immediately preceding the date of purchase, has assets of not less than twenty-five million dollars (\$25,000,000) at the date of purchase, and invests substantially all of its assets in investments permitted under this section; or

14. Loans upon the pledge of any of the investments described in this section other than real estate and those qualifying solely under paragraph 20 of this subsection, but the amount of such a loan shall not exceed seventy-five percent (75%) of the value of the investment pledged.

15. The value of such real estate for deposit and statement purposes is to be determined in a manner satisfactory to the department.

15.(A) Tangible personal property, equipment trust obligations, or other instruments evidencing an ownership interest or other interest in tangible personal property when the life insurance company purchasing such property has admitted assets in excess of twenty-five million dollars (\$25,000,000), and where there is a right to receive determined portions of rental, purchase, or other fixed obligatory payments for the use of such personal property from a corporation whose obligations would be eligible for investment under the provisions of paragraph 11 of this subsection, provided that the aggregate of such payments together with the estimated salvage value of such property at the end of its minimum useful life, to be determined in a manner acceptable to the insurance commissioner, and the estimated tax benefits to the insurer resulting from ownership of such property, is adequate to return the cost of the investment in such property, and provided further, that

- (d) 1 or 2 by the Securities Valuation Office.

If the obligations issued by a business entity organized under the laws of a foreign jurisdiction have not received a rating, investments may nevertheless be made under this paragraph in such obligations and in the preferred and common stock of the business entity if the earnings available for fixed charges of the business entity for a period of five (5) fiscal years preceding the date of purchase have averaged at least three (3) times its average fixed charges applicable to such period, and if during either of the last two (2) years of such period, the earnings available for fixed charges were at least three (3) times its fixed charges for such year. ~~in~~ Investments authorized by this paragraph in a single foreign jurisdiction shall not exceed ten percent (10%) of the life insurance company's admitted assets. 26. No life insurance company may invest in the stocks or obligations, except investments under paragraphs 9 and 10 of this subsection, of any corporation in which an officer of such life insurance company is either an officer or director. However, this limitation shall not apply with respect to such investments in:

- (a) a corporation which is a subsidiary or affiliate of such life insurance company; or
- (b) a trade association, provided such investment meets the requirements of paragraph 5 of this subsection.

27. 29. A. Before a life insurance company may engage in securities lending transactions, repurchase transactions, reverse repurchase transactions, or dollar roll transactions, the life insurance company's board of directors must adopt a written plan that includes guidelines and objectives to be followed, including the following:

- (1) A description of how cash received will be invested or used for general corporate purposes of the company.
- (2) Operational procedures for managing interest rate risk, counterparty default risk, and the use of acceptable collateral in a manner that reflects the liquidity needs of the transaction.
- (3) A statement of the extent to which the company may engage in securities lending transactions, repurchase transactions, reverse repurchase transactions, and dollar roll transactions.

B. A life insurance company must enter into a written agreement for all transactions authorized by this paragraph, other than dollar roll transactions. The written agreement:

- (1) must require the termination of each transaction not more than one (1) year after its inception or upon the earlier demand of the company; and

**C**

(2) must be with the counterparty business entity, except that, for securities lending transactions, the agreement may be with an agent acting on behalf of the life insurance company if:

(A) the agent is:

(i) a business entity, the obligations of which are rated BBB- or higher by Standard & Poor's Corporation (or A-2 or higher in the case of commercial paper), Baa3 or higher by Moody's Investors Service, Inc. (or P-2 or higher in the case of commercial paper), BBB- or higher by Duff and Phelps, Inc. (or D-2 or higher in the case of commercial paper), or 1 or 2 by the Securities Valuation Office;

(ii) a business entity that is a primary dealer in United States government securities, recognized by the Federal Reserve Bank of New York; or

(B) the agreement requires the agent to enter into with each counterparty separate agreements that are consistent with the requirements of this paragraph.

C. Cash received in a transaction under this paragraph shall be:

(1) invested:

(A) in accordance with this section 2; and

(B) in a manner that recognizes the liquidity needs of the transaction; or

(2) used by the life insurance company for its general corporate purposes.

D. For as long as a transaction under this paragraph remains outstanding, the life insurance company or its agent or custodian shall maintain, as to acceptable collateral received in the transaction, either physically or through book entry systems of the Federal Reserve, the Depository Trust Company, the Participants Trust Company, or another securities depository approved by the commissioner:

(2) a perfected security interest in the acceptable collateral; or

(3) in the case of a jurisdiction outside the United States:

(A) title to; or

(B) rights of a secured creditor to;

E. The limitations set forth in paragraphs 17 and 21 of this subsection do not apply to transactions under this paragraph 29. For purposes of calculations made to determine compliance with this paragraph, no effect may be given to the future obligation of the life

insurance company to:

- (1) resell securities, in the case of a repurchase transaction; or
- (2) repurchase securities, in the case of a reverse repurchase transaction.

F. A life insurance company shall not enter into a transaction under this paragraph if, as a result of the transaction, and after giving effect to the transaction:

- (1) the aggregate amount of securities then loaned, sold to, or purchased from any one (1) business entity under this paragraph would exceed five percent (5%) of the company's admitted assets (but in calculating the amount sold to or purchased from a business entity under repurchase or reverse repurchase transactions, effect may be given to netting provisions under a master written agreement); or
- (2) the aggregate amount of all securities then loaned, sold to, or purchased from all business entities under this paragraph would exceed forty percent (40%) of the admitted assets of the company (provided, however, that this limitation does not apply to a reverse repurchase transaction if the borrowing is used to meet operational liquidity requirements resulting from an officially declared catastrophe and is subject to a plan approved by the commissioner).

G. The following collateral requirements apply to all transactions under this paragraph:

- (1) In a securities lending transaction, the life insurance company must receive acceptable collateral having a market value as of the transaction date at least equal to one hundred two percent (102%) of the market value of the securities loaned by the company in the transaction as of that date. If at any time the market value of the acceptable collateral received from a particular business entity is less than the market value of all securities loaned by the company to that business entity, the business entity shall be obligated to deliver additional acceptable collateral to the company, the market value of which, together with the market value of all acceptable collateral then held in connection with all securities lending transactions with that business entity, equals at least one hundred two percent (102%) of the market value of the loaned securities.
- (2) In a reverse repurchase transaction, other than a dollar roll transaction, the life insurance company must receive acceptable collateral having a market value as of the transaction date equal to at least ninety-five percent (95%) of the market value of the

securities transferred by the company in the transaction as of that date. If at any time the market value of the acceptable collateral received from a particular business entity is less than ninety-five percent (95%) of the market value of all securities transferred by the company to that business entity, the business entity shall be obligated to deliver additional acceptable collateral to the company, the market value of which, together with the market value of all acceptable collateral then held in connection with all reverse repurchase transactions with that business entity, equals at least ninety-five percent (95%) of the market value of the transferred securities.

(3) In a dollar roll transaction, the life insurance company must receive cash in an amount at least equal to the market value of the securities transferred by the company in the transaction as of the transaction date.

(4) In a repurchase transaction, the life insurance company must receive acceptable collateral having a market value equal to at least one hundred two percent (102%) of the purchase price paid by the company for the securities. If at any time the market value of the acceptable collateral received from a particular business entity is less than one hundred percent (100%) of the purchase price paid by the life insurance company in all repurchase transactions with that business entity, the business entity shall be obligated to provide additional acceptable collateral to the company, the market value of which, together with the market value of all acceptable collateral then held in connection with all repurchase transactions with that business entity, equals at least one hundred two percent (102%) of the purchase price. Securities acquired by a life insurance company in a repurchase transaction shall not be:

- (A) sold in a reverse repurchase transaction;
- (B) loaned in a securities lending transaction; or
- (C) otherwise pledged.

30. A life insurance company may invest in obligations or interests in trusts or partnerships regardless of the issuer, which are secured by:

- (a) investments authorized by paragraphs 1, 2, 3, 4, or 11 of this subsection; or
- (b) collateral with the characteristics and limitations prescribed for loans under paragraph 5 of this subsection.

For the purposes of this paragraph 30, collateral may be substituted for other collateral if it is in the same amount with the same or greater interest rate and qualifies as collateral under subparagraph (a) or (b) of

this paragraph.

~~30.(A)~~ **31.** A life insurance company may invest in obligations or interests in trusts or partnerships, regardless of the issuer, secured by any form of collateral other than that described in subparagraphs (a) and (b) of paragraph 30 of this subsection, which obligations or interests in trusts or partnerships are rated:

(1) "Affiliate" means, as to any person, another person that, directly or indirectly through one (1) or more intermediaries, controls, is controlled by, or is under common control with the person.

(2) "Control" means the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract (other than a commercial contract for goods or non-management services), or otherwise, unless the power is the result of an official position with or corporate office held by the person. Control shall be presumed to exist if a person, directly or indirectly, owns, controls, holds with the power to vote or holds proxies representing ten percent (10%) or more of the voting securities of another person. This presumption may be rebutted by a showing that control does not exist in fact. The commissioner may determine, after furnishing all interested persons notice and an opportunity to be heard and making specific findings of fact to support the determination, that control exists in fact, notwithstanding the absence of a presumption to that effect.

(3) "Qualified bank" means a national bank, state bank, or trust company that at all times is not less than adequately capitalized as determined by standards adopted by United States banking regulators and that is either regulated by state banking laws or is a member of the Federal Reserve System.

(A) a remaining maturity of three hundred ninety-seven (397) days or less or a put that entitles the holder to receive the principal amount of the obligation which put may be exercised through maturity at specified intervals not exceeding three hundred ninety-seven (397) days; or

(B) a remaining maturity of three (3) years or less and a floating interest rate that resets not less frequently than quarterly on the basis of a current short-term index (for example, federal funds, prime rate, treasury bills, London InterBank Offered Rate (LIBOR) or commercial paper) and is not subject to a maximum limit, if the obligations do not have an interest rate that varies inversely to market interest rate changes;

(2) government money market mutual funds or class one money market mutual funds; or

(3) securities lending, repurchase, and reverse repurchase and dollar roll transactions that meet the requirements of paragraph 29 of this subsection and any applicable regulations of the department;

provided that the investment pool shall not acquire investments in any one (1) business entity that exceed ten percent (10%) of the total assets of the investment pool.

D. For an investment pool to be qualified under this paragraph, the investment pool shall not:

(1) acquire securities issued, assumed, guaranteed, or insured by the life insurance company or an affiliate of the company; or

(2) borrow or incur any indebtedness for borrowed money, except for securities lending, reverse repurchase, and dollar roll transactions that meet the requirements of paragraph 29 of this subsection.

E. A life insurance company shall not participate in an investment pool qualified under this paragraph if, as a result of and after giving effect to the participation, the aggregate amount of participation then held by the company in all investment pools under this paragraph and section 2.4 of this chapter would exceed thirty-five percent (35%) of its admitted assets.

(5) Withdrawals may be made on demand without penalty or other assessment on any business day, but settlement of funds shall occur within a reasonable and customary period thereafter. Payments upon withdrawals under this paragraph shall be calculated in each case net of all then applicable fees and expenses of the investment pool. The pooling agreement shall provide for such payments to be made to the participants in one

(1) of the following forms, at the discretion of the pool manager:

(A) in cash, the then fair market value of the participant's pro rata share of each underlying asset of the investment pool;

However, where the security consists of a first mortgage lien or deed of trust on a fee interest in real property, the obligation may provide for the amortization, during the initial fixed period of the lease or contract of less than one hundred percent (100%) of the indebtedness if there is pledged or assigned, as additional security for the obligation, sufficient rentals payable under the lease, or of contract payments, to secure the amortized obligation payments required during the initial, fixed period of the lease or contract, including but not limited to payments of principal, interest, and taxes other than the income taxes of the borrower, and if there is to be left unamortized at the end of the period an amount not greater than the original appraised value of the land only, exclusive of all improvements, as prescribed by law.

- (A) has been registered with the Securities and Exchange Commission for a period of at least five (5) years immediately preceding the date of purchase;
- (B) has net assets of at least twenty-five million dollars (\$25,000,000) on the date of purchase; and

The aggregate amount of investments under this subdivision may be limited by the commissioner if the commissioner finds that investments under this subdivision may render the operation of the company hazardous to the company's policyholders, to the company's creditors, or to the general public. This subdivision in no way limits or restricts investments that are otherwise specifically permitted under this section.
